BADER ANTAKI

CO-FOUNDER OF FUNPHONEVIDEO

It is so easy to document your life with just your phone!

I help you simplify making videos without fancy equipment.

I show you how to create cool videos for your business, products and services.

It Only Takes Seconds!

Everyone can do so with: **X** NO heavy cameras
X NO complicated softwares
X NO Fluff

GETTING STARTED

WHY YOU ONLY NEED A PHONE

Creating fun and engaging phone videos is easier than you think. With the right tips and tools, you can make content that resonates with your audience and showcases your brand.

If you've ever felt like creating high-quality videos is out of reach because you didn't have the right equipment or expertise, think again. This ebook is here to show you how anyone can create amazing content using just their phone.

Here's why using your phone is a game-changer:

- Easy to Film 📱
- Always Available ✅
- Wide Stable Angle Lens 📐
- Great in Low Light Conditions 🌃
- Long Battery Life (MagSafe) 🔋
- Great Quality Straight from the Camera 💎
- User-Friendly Editing Software 🎬
- Compatible with All social media Platforms 📺

EQUIPMENT & FILMING

EQUIPMENT

- Microphones for clear audio
- Stand for stable shots
 - Gimbal for smooth movements
- Extra Batteries (MagSafe) for extended shoots
 - Portable Lights

PRACTICAL TIPS

- Film Horizontally (or) Vertically.
- Take a One-Second Break before starting and ending your shots.
- Avoid Filming from Right to Left; it's disorienting for viewers.

FILMING

Improve Handheld Filming
Take a glass of water and walk with it.

If you can keep the water from spilling, you're on your way to mastering handheld filming.

EDITING & INSPIRATION

EDITING APP

Download the VN app on your iPhone. It's user-friendly and perfect for beginners.

MUSIC

I recommend using: uppbeat.io or [Scott Buckley](#) for background music. (Make sure you credit them correctly in the video description).

INSPIRATION

Netflix, Instagram, and TikTok for creative ideas. Get inspiration but never copy.

CONCLUSION

You no longer need a camera and laptop for editing.
All you need is your phone and some guidance to
make the videos look like they were created by a
SEASONED PROFESSIONAL.
